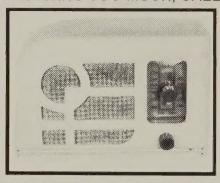
WANTED

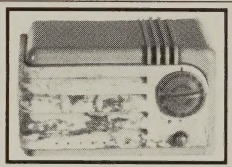
AIR KING SKYSCRAPERS

PAYING $14,500.00+ for near mint condition red or blue
$10,000.00+ for green, lavender or yellow
$3000.00+ for black and $2000.00+ for white or brown
ALSO WANTED ANY COLOR~ANY CONDITION
COLLECTOR PAYING TOO MUCH, *CALL ME LAST*



TOM THUMB CATALIN RADIOS WANTED

paying $6,750.00+ for mint cond. red, green, orchid, blue
$2500.00+ for any mint condition one
ALSO WANTED ANY COLOR~ANY CONDITION



DETROLA PEE WEE & SUPER PEE WEE WANTED

paying $600.00+ for mint cond. black, white
$1,450.00+ for beatle, gray, salt & pepper
$2000.00+ for red, blue $3500.00+ for green or lavender
ALSO WANTED ANY COLOR~ANY CONDITION

WANTED ANY CATALIN RADIO

ADDISON 2 MAROON & YELLOW $900.00, YELLOW & RED $3,750.00
ARVIN 532 ANY COLOR $2,500.00, BENDIX 526 GREEN & BLACK $625.00,
DeWALD A501, A502 BROWN $375.00, YELLOW $425.00, RED $1,200.00
EMERSON AU 190 & BT 245 YELLOW $1,300.00, GREEN $2,500.00,
DARK RED $2,700.00, BLUE $6,850.00, **BRIGHT RED $11,000.00.**
ESPEY MIDGET, YOU NAME THE PRICE I WILL PAY IT!
EMERSON BM258 YELLOW $750, GREEN $1,350, RED $2,150, BLUE $4,000
EMERSON 564 BLACK $500.00, GREEN $1,150.00, RED $1,650.00
FADA L56,F55,52,5F50,5F60,136,53X, YELLOW $1,500.00, LT GREEN $1,750.00
MAROON & YELLOW $2,200.00, YELLOW & BLUE $2,500.00, YELLOW & RED $3,100.00,
EMERALD GREEN & YELLOW $7,000.00, BLUE & YELLOW $7,000.00.
FADA 115, 116 & 1000 ALL YELLOW $700.00, MAROON & YELLOW $950.00,
YELLOW & RED $1,150.00, PEA GREEN $1300.00, BLUE & YELLOW $2,550.00.
GAROD 6AU1 MAROON $675.00, YELLOW & RED 1,350.00,
RED & YELLOW $1,450.00 **HALSON ANY COLOR**
$1,500.00 TO $5,000.00 **MOTOROLA 50XC** ALL YELLOW $1,750, BROWN & TORT $2,750.00,
RED & YELLOW $6,000.00, GREEN & YELLOW $6,250.00, **MOTOROLA 52** YELLOW & TORT $1,500.00, MAROON & YELLOW $1,850.00, GREEN & YELLOW $2,900.00,
SONORA KM ANY COLOR $1,600.00, **SENTINEL 284 WAVEY GRILL** YELLOW $700.00,
SAND 950.00, RED 1,450.00 **BLUE 6,500.00**
SPARTON CLOISONNE ANY COLOR $3,500.00 TO $5,500.00, EMERSON 520 $50.00

always buying any catalin or pre-war colored bakelite radios
We will buy one piece or the entire collection.

CAN THE BEST GET BETTER?

REA created the first Riders CD-Series. Now we introduce "THE" CD that no radio restorer, repair-person or historian should miss! We proudly introduce the Radiotron-Cunningham Complete Perpetual Troubleshooters Manual published in 1933 by John Rider on a single high resolution CD-ROM

This CD runs with Windows on a PC. It holds 2,767 pages of very high resolution scanned schematic diagrams of all of the early radios from 1920 to 1933 when this publication was produced. This was the fore-runner to the famous 23 Volume series that John Rider produced of early radio schematics and that REA made easier by scanning and putting it on 6 CD-ROM's. This CD has the entire Radiotron-Cunningham publication with an accurate index and even a bonus of radio set information that can be used in identifying no-name or model number radio sets. This CD will show the most minute parts values as each page was scanned at 3 times the resolution of our original Riders CD-series. Early set restorers know about parts values whose value is unreadable. We also know of the site on the internet where one can find some "free" schematics that are worthless because you can't see the values. So we felt that with the new technology that is available that the time had come to perhaps make the best really get better. This CD is not a replacement to our database driven 6-CD set, but an addition to it to improve the quality of the images to get even the smallest unreadable characters magnified on the screen for easy reading!

A must CD - Only $ 85 postpaid USA, $ 95.00 export

Other CD-ROM Publications:

Sam's Photofact Sets 1-175 - 7 CD's, with Sets 1-25, 26-50, 51-75, 76-100, 101-125, 126-150 and 151-175. Only $ 79 each CD-ROM (25 sets per CD)
All 7 Sam's CD's (1-175) - $ 495.00 . . . . . .

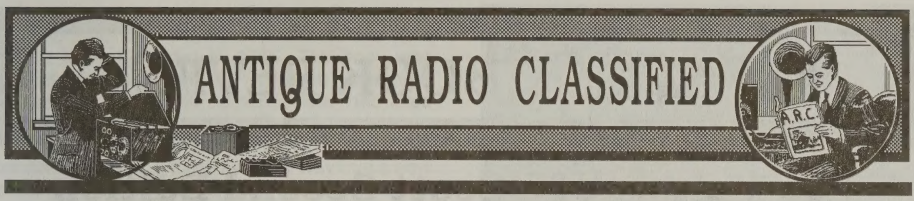
CONTACTING ANTIQUE RADIO CLASSIFIED. All correspondence should be sent to:

A.R.C., P.O. Box 2, Carlisle, MA 01741.
Only UPS, FedEx, etc. items to street address: 498-A Cross Street.
Telephone: (866) 371-0512; Fax: (978) 371-7129
E-mail: ARC@antiqueradio.com
Web: www.antiqueradio.com
Please, no classified ads by telephone; thanks.

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest to its readers and publishes them as space permits. (See "Publishing Rights" paragraph.)



EDITOR'S COMMENTS

Do valentines and radios go together? Every year we ask that question when we start to think about our February cover. Certainly the creators of early 20th century valentines thought so, as we frequently find in our archives or have sent to us postcards with valentine-radio motifs. Our candidate this year didn't make the cover, and if you turn to page 23, you'll surely guess why.

Right. As a cover, given its sentiment, this valentine might be irresistible to "radio widows" who would tack it to the refrigerator door. To avoid that hazard, we feature instead the beautiful E.H. Scott 48-tube Quaranta as a welcoming introduction to the new second edition of *E.H. Scott, the Dean of DX* written by Marvin Hobbs, published by John Slusser of Radio Daze Press, and the subject of two lead articles in this issue.

An avid Scott collector, John Slusser became intrigued a few years ago with the idea of a second edition of the Hobbs book, first published in 1985. His enthusiasm was matched by Hobbs himself, and they were soon off on this exciting project that produced three new chapters, other additions throughout, and a color photo section.

The new book has also resulted in a 4-page spread for A.R.C.: first, an article by John Slusser about the evolution of the second edition; next, a review of the book by Norman Braithwaite, owner of the Scott 48-tube receiver; and finally, Norm's article on the receiver's first public display in an exhibit at the Turtle Bay Museum in Redding, California.

Coincidence, collaboration, call it what you will, but everything seems to have fallen together here at the right time — the exhibit, the publication of the book, and the Quaranta on the cover of the book, as well as on our cover. In addition, there's the very interesting twist of having a book written by someone intimately involved with the company. Someone who was there often paints a clearer, sometimes very different picture.

And so it is with Gene Katz's article on Radio Row. Though appreciating the nostalgia of A.R.C.'s earlier tales of Radio Row, followed by the vivid portrayal of the World Trade Center tragedy, Gene thought it was time for an inside story. His is the view of an ordinary worker in a time before employee benefits, or even consideration, were a big part of any employment scenario. Radio Row for him and fellow workers was less than ideal — not exactly "the good ol' days."

Wally Worth takes us even farther back to the 1920s with his unusual 8-tube Haynes-Griffin superhet. Since this issue seems to be caught up in superhets, we'd like to challenge Wally to get his set working and then compare it to Norm's 48-tube Quaranta of the 1930s.

Again *Photo Review* has something for everyone. The Kennedy battery set will catch one collector's eye, while Ham, transistor, and military collectors as well will be intrigued. A British H.P.R. Wireless set reminds us that Europe also offers many interesting sets, as Girard Faasen's display of 1930s Philips receivers and posters proves in the next article. A visit to Holland should take you to Girard's front door. The radio museum and repair shop on his grounds will be a highlight of your trip, as I can personally attest.

The Dorotheum Auction in Vienna too should be a temptation for a trip abroad. Erwin Macho keeps us up-to-date on what is going on in Europe's radio world. Had you been there this year, you might have been somewhat hesitant about the Ingelen that went for $2,200 in just a few minutes.

Back to middle America and Fred Prohl's report on the Indiana Historical Society's meet and auction. Featured was the collection of Indiana radio celebrity George Kane, which included a Zenith chairside selling at $550, along with many other sets under $100.

We also have another John Hagman report on the New England Antique Radio Club's summer meet. You'll recall that John is the "tattoo man" whose style always makes his trips to New Hampshire seem like a fun time.

Another regular reporter is Alton DuBois whose article on his Eveready No. 2 restoration proves that persistence pays. Alton doesn't hesitate to search far and wide for parts — a lesson to us all.

In *Radio Miscellanea*, be sure to note the correction to the resistance line cord schematic shown on page 19 of the December 2002 issue. Thanks to you readers for paying attention and helping us to correct errors.

And we come full circle to our choice of "Valentine of the Year," thanks to Ed Adrion. In case you're having trouble reading it, here is the text: "Radio Bug. Your head is just a peanut tube. Your voice is full of static. You're simply a loud speaker, with nothing in your attic." Hope it doesn't make your refrigerator door!

A.R.C. Benefits. To offset the winter doldrums, take advantage of A.R.C. benefits: a toll-free number, (866) 371-0512; the Web: www.antiqueradio.com; Discover, Visa, American Express, and MasterCard accepted; books shipped free in the U.S. by book rate; and to current subscribers, a ten percent discount on all book orders.

Coming Radio Events. Winter events for February abound. Radio XXXIV highlights the New England agenda, if last year's sold-out event attended by over 800 people is any test. More winter meets and another Estes auction are all lures to other parts of the country. Be sure to attend at least one near you.

Happy Collecting!

Jonn V. Terrey, Editor

ON THE COVER

Our cover pictures the E.H. Scott 48-tube Quaranta, courtesy of the Norman Braithwaite Collection. This rare set is also on the cover of the new second edition of *E.H. Scott, The Dean of DX* by Marvin Hobbs, recently published by John Slusser of Radio Daze Press. This is, indeed, a "classic radio."

BOOK REVIEW

The Making of a Scott Second Edition
Opportunity of a Lifetime

BY JOHN SLUSSER

The following is, indeed, a success story. It's not often that an interest in a particular radio brand leads ultimately to the publication of a book on the subject. Our congratulations to John Slusser on his "opportunity of a lifetime" — a chance to publish an updated version of "E.H. Scott The Dean of DX." (Editor)

I am not quite sure when I decided that I wanted to focus my personal vintage radio collection on the classics of E.H. Scott Radio Laboratories. When I returned to the hobby in my late 30s after an absence since my teens, I originally wanted to have every classic radio I could find. I know many collectors begin that way. However, it wasn't too long thereafter when the realization hit home that there are thousands and thousands of different radios out there, that one could easily end up mortgaging the home and trying to sell the wife and kids to finance the growing collection, and that the garage, basement, den, living room, kitchen, bedroom, bathroom and doghouse can only hold so many sets.

COMMITMENT TO COLLECTING E.H. SCOTT

One day, perhaps ten years ago or so and not too long into my resurrected hobby, I received a call from a lady who had inherited her father's "real nice shiny radio in a gorgeous cabinet." She went on to say that a plate on the back of the set indicated it had been built by E.H. Scott Radio Laboratories. I had heard a bit about Scott sets but had never seen one.

When I took my first look at the lady's Scott, I was immediately captivated. It had two immaculate chrome chassis, an amazing speaker system, a built-in record player, and a very ornate cabinet. Along with the set, she had all of her father's correspondence with E.H. Scott Radio Laboratories regarding the radio, plus the original invoice, manual, various copies of "Scott News" and other marketing pieces. I purchased the set, returned a bit later the same day with a few strong backs to help transport it home, and spent the rest of that weekend just fascinated with my purchase. I soon identified it as an E.H. Scott Allwave 23 in a Wellington cabinet.

After this experience with my first E.H. Scott radio acquisition, I began to keep my eye out for other Scott sets. It actually wasn't too long before I came across a World War II "boat anchor" set in an antique shop; it turned out to be a Scott SLR-12 morale receiver. Soon thereafter, I found the two chassis and speakers for a Scott FM Philharmonic, an amazing 33-tube set! I guess, upon reflection, it was probably at that point that I was fully hooked and decided I wanted to concentrate my personal collection on Scott radios.

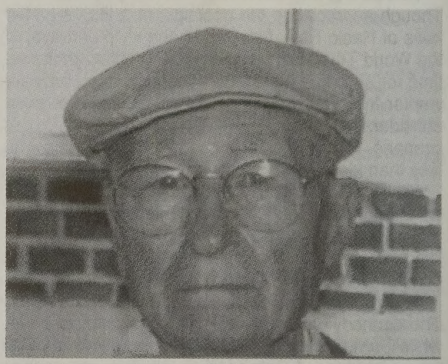
E.H. SCOTT RADIO LABORATORIES

As my collection grew over several years, I became absolutely intrigued not only with Scott products but with the company and its founder, E.H. Scott. Based upon my own engineering and business experience, it appeared to me that E.H. Scott Radio Laboratories had to have been a unique enterprise.

On the product side, Scott Radio was always on the leading edge of technology, and its engineering organization must have included some of the best and brightest in the radio industry. On the business side, the whole concept of selling high-end, made-to-order, custom radio sets during the tough economic times of the Depression would seem in retrospect to be a sure recipe for guaranteed business failure. Yet, somehow, guided by the ambitions and classic marketing and sales savvy of E.H. Scott himself, the company was successful during a period when many others in the radio industry failed. It seemed to me that the story of Scott and his company was a fascinating piece of radio history.

PROPOSAL FOR A SECOND EDITION

About a year and one-half ago, as part of a Scott documentation purchase, I received a copy of a paperback book entitled *E.H. Scott, The Dean of DX* written by Marvin Hobbs. Marvin had



Marvin Hobbs, author of "E.H. Scott ,The Dean of DX."

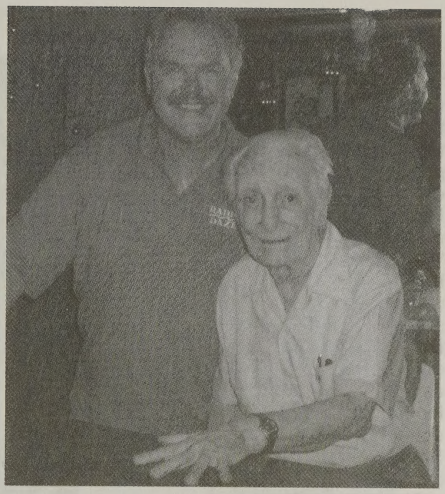
been the Chief Engineer at Scott Radio from 1939 to 1947 and wrote and published the book with a limited printing in 1985. The book was essentially the story of E.H. Scott and his company uniquely written by someone who had lived and contributed to part of the Scott saga. I began to wonder, since the book had been out of print for over 15 years, if there was any way that a new printing could be made so the Scott story could be told to a whole new generation of radio collectors.

In a dialogue with Kent King, a well known E.H. Scott collector and historian, I was astonished to learn that Marvin Hobbs was approaching 90 and was as vigorous as ever. I decided I would contact Marvin to see if he had any interest in a second printing of the book. To me, based upon my great interest in Scott, it was exciting to consider the potential of working with Marvin in such an endeavor.

To my absolute delight, Marvin was most interested in the project. He had accumulated a substantial amount of additional information on Scott and Scott Radio, and it soon was agreed that an expanded second edition of the book was in order. To make a long story short, with Marvin as the author and driving force, with me acting as publisher, and with several key individuals in the Scott and vintage radio collector community offering support, the second edition of *E.H. Scott The Dean of DX* came together.

For me, it was as if I had been given a "time machine" to relive some radio history via Marvin's first-hand recollections about the history of E.H. Scott and the company before and after his tenure. Marvin's own work at Scott on the introduction of FM, World War II morale receivers and the first presidential aircraft radio would also be part of the picture.

During work on the second edition, I learned that Murray Clay, Scott Chief Engineer prior to Marvin Hobbs and designer of many Scott classic sets, was doing well in his mid-90s. In July 2002,



Murray Clay, on the right, was Scott's Chief Engineer prior to Marvin Hobbs. John Slusser, publisher of the Scott second edition, is on the left.

I had the distinct honor of meeting and spending a bit of time with Murray in person. With the second edition now complete, my chance to work with Marvin and meet Murray has truly been a radio collector's dream come true. I now appreciate, with a whole new and greatly enriched perspective, those shiny chrome sets, the great Scott sound and those gorgeous cabinets more than ever. Publishing this book has, for me, been an opportunity of a lifetime.

(John Slussser, c/o Radio Daze, 7 Assembly Drive, Mendon, NY 14506. Tel: 585-624-9755; E-mail: info@radiodaze.com; Fax: 800-456-6494)

E.H. Scott, Dean of DX — Second Edition

By Marvin Hobbs

REVIEWED BY NORMAN S. BRAITHWAITE

Without the recollections, research and dedication of Marvin Hobbs, little would be known about the operation of E.H. Scott Radio Laboratories today. Records from the E.H. Scott Radio Laboratories were lost during the many changes of ownership of the atrophying company during the 1950s.

Marvin Hobbs' first edition of *E.H. Scott, Dean of DX* described the company history and its progression of receivers and documented the AR-1 Presidential Radio used in the Sacred Cow. It also provided the first glimpse into the inner workings of the E.H. Scott Radio Laboratories after they were well established as the builders of the world's finest home receivers.

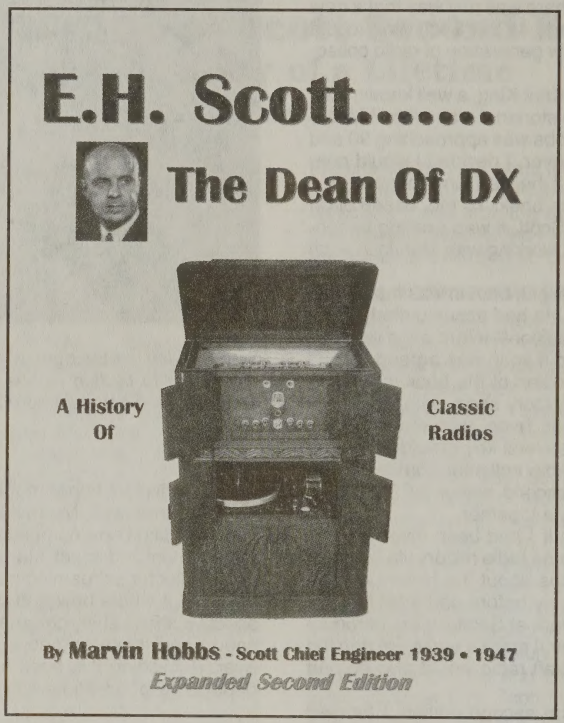
During the nearly two decades since publication of the first edition, much additional information about the operation and products of E.H. Scott Radio Laboratories has come to light. Of great significance are papers addressing financial difficulties during fiscal year 1938, recently declassified military information and additional knowledge regarding Scott's "Quaranta" receivers. Much of this new information has been incorporated into the second edition to produce the most comprehensive published account yet of the E.H. Scott Radio Laboratories, their products, their war contributions and their demise.

Although the second edition of *E.H. Scott, Dean*

(Continued on following page)

(E.H. Scott, continued)

of DX is described as "expanded," I would have to describe it as greatly expanded and matured. The 170-page, 5" x 8", black and white first edition has grown to a 240-page, 8" x 11" living color book! New chapters have been added to address the 1938 financial difficulties, wartime receiver production, and development of Radio Corporation of America's "Berkshire" line of high-end radio-phonographs, some with TV. The Berkshire is the only postwar receiver incorporating the ideals and standards of the Scott prewar receivers.



E.H. Scott.....
The Dean Of DX
A History Of
Classic Radios
By Marvin Hobbs - Scott Chief Engineer 1939 • 1947
Expanded Second Edition

New appendices include patents (illustrations plus descriptions) and circuit diagrams for most Scott models. The patents include several of which I was not aware. For example, the chapter on financial difficulties contains one patent regarding low noise, high volume range sound recording on film, in which the E.H. Scott Radio Laboratories had invested. Marvin was personally involved in some patents about which he supplies additional information.

The circuit diagrams include reproductions of original blueprints containing portions of a 50-tube variant of the Quaranta and circuit diagrams for the AR-1 Presidential Radio. They also include circuit diagrams for the rare and unusual Scott Special Communications Receiver, the only civilian communications receiver ever built by the Laboratories.

Also in the second edition are almost fifty high quality color photos, several of which are the first ever published of the only known surviving example of a 48-Tube Custom Receiver (Quaranta variant). Graphics and formatting have been improved and many illustrations from the *Scott News*, the E.H. Scott Radio Laboratories news magazine, and Scott advertisements have been included.

The second edition of *E.H. Scott, Dean of DX* should be appreciated by all persons interested in the history and development of radio and military communications, as well as those of us specifically interested in the E.H. Scott Radio Laboratories and their products. Marvin has done an excellent job of resurrecting the lost history of the E.H. Scott Radio Laboratories and their contributions to radio and communications history. Credit is also due John Slusser and Radio Daze for an excellent job of preparing photos and illustrations as well as for publishing the book.

E.H. Scott, Dean of DX, Second Edition is a 240-page, 8" x 11" paperback book with many color, as well as black and white, photos. It may be purchased for $29.95 from the publisher, Radio Daze Press, at www.radiodaze.com, and from A.R.C. Please check these sources for shipping information.

(Norman S. Braithwaite, P.O. Box 2443, Redding, CA 96099)

Scott 48-Tube Custom Receiver — On Exhibit

COMPILED FROM INFORMATION CONTRIBUTED BY NORMAN B. BRAITHWAITE

Scott receivers have been the subject of several earlier A.R.C. articles by Norman Braithwaite. This report is particularly timely because Norman's Scott receiver in this display was chosen by John Slusser for the cover of "E.H. Scott... The Dean of DX." (Editor)

From October 26, 2002, to January 5, 2003, the Turtle Bay Museum, part of the new Turtle Bay Museum Exploration Park in Redding, California, hosted an exhibit entitled "Inspired Obsessions." The exhibit featured unusual and exceptional collections, including a small display of radios.

As part of this exhibit, Norman Braithwaite, longtime collector and contributor to A.R.C., loaned several radios, including the Scott 48-tube custom receiver, displayed for the first

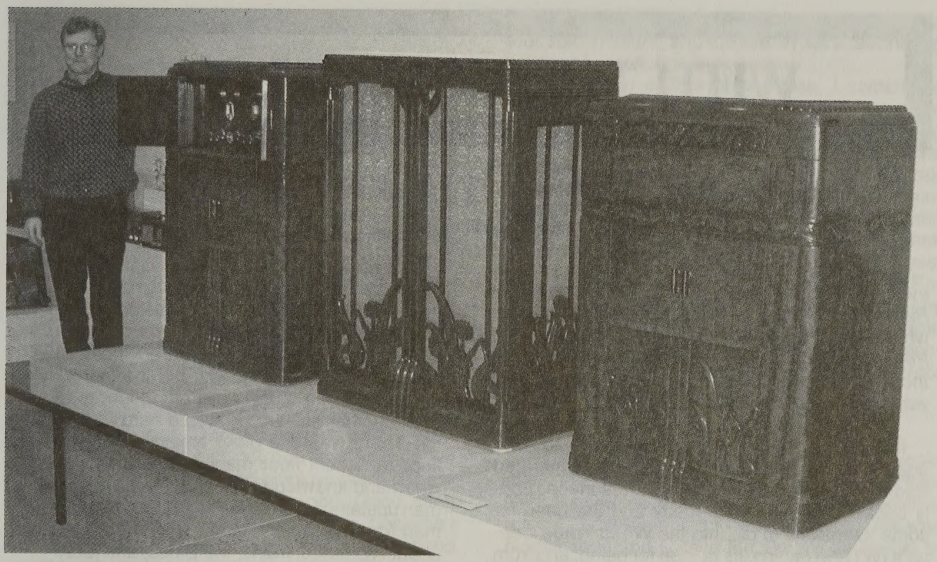


Figure 1. Shown here is Norm Braithwaite with his 3-piece Scott 48-tube custom receiver. This complete receiver was the centerpiece of the radio part of the exhibit at the Turtle Bay Museum in Redding, California.

time ever to the general public. As many readers know, this is the only complete surviving example of the Scott custom series of receivers — the Quaranta, the 48-tube custom receiver, and the 50-tube version of the custom receiver. All three cabinets that comprise the complete 48-tube receiver were on display, as shown in Figure 1.

As shown in Figure 2, crystal, battery, cathedral, and breadboard sets, as well as other radio equipment, were also displayed, but as Norm says, "Though all are very significant in themselves, they appear pretty insignificant next to the Scott."

Unfortunately, most of us did not have the opportunity to see the exhibit. And it is unlikely that Norm will offer this receiver for public display again, given the difficulty in moving it and setting it up. However, Norm has written extensively about his receivers and their restoration for A.R.C. We urge you to check out his articles in the February and July, 1987, issues, as well as the September 1988 issue.

(Norman S. Braithwaite, P.O. Box 2443, Redding, CA 96099)

Norman S. Braithwaite, a civil engineer, began collecting radios in 1975, especially those manufactured by E.H. Scott and its competitors. His collection includes representative sets from 1917 to 1960, his prize being the rare Scott 48-tube custom receiver.

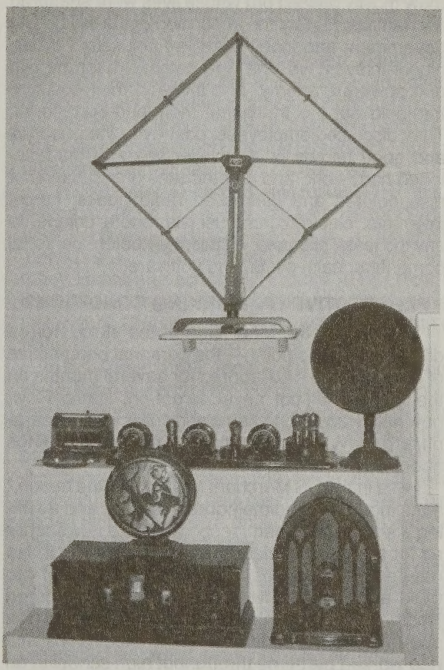

Figure 2. Among the other items in the exhibit was this display of a loop antenna, a crystal set, a breadboard, a horn speaker, a battery set, and a GE cathedral.

WITH THE COLLECTORS

Radio Row — The Other Side

BY GENE S. KATZ

As we all know, there are at least two sides to every story. Gene Katz presents his memories of Radio Row — from the view point of a salesman who worked there in less than ideal circumstances. Perhaps most of us can relate to his experience in the days before worker benefits and even respect were much of a consideration. (Editor)

It is somewhat gratifying and nostalgic to once again read and listen to things about the venerated Radio Row. Unfortunately, the Row resurfaced partly because of the 9/11 tragedy and the need for some journalists to dig into the World Trade Center's (WTC's) origins, its reason for being, and from whence it had physically sprung. Yes, I have listened to the fine NPR show on Radio Row and nodded my approval of the great A.R.C. stories on Radio Row.

Furthermore, I empathize with the store owners (now mostly passed on) whose lives were shattered and families hurt by the imposition of the WTC. The government and lobby-contrived colossus ("fraternity-of-thieves" was the Row catchword for the rich and powerful "enemy" and those in their pockets) trampled out the traditional mom-and-pop stores. They displaced employees, destroyed the good will and good names built up over years of old-fashioned hard work, and created tens of thousands of disappointed and distressed radio geeks, hams, inventors, electronic enthusiasts, and a unique, to say the least, clientele. All this, way before personal computers, palm pilots, and software.

PERSPECTIVE ON WORKING CONDITIONS

But now for the other side of the story, from a different vantage point — the personal perspective of a worker bee who labored for several months on the long gone, but never forgotten, Radio Row, now hallowed among hams and collectors. To paraphrase Sir Winston Churchill, "I hold certain things about it in a minimum of high regard."

I was in the US Merchant Marine, "on the beach," studying for my radiotelegraph license, and awaiting a ship berth, when I responded to a newspaper ad for a "man with electronic knowledge." In those days employment ads were actually separated into male and female. I went to one of the stores on Radio Row, was interviewed, and hired on the spot. I always had an interest in electronics and had worked part-time throughout high school in an old-fashioned radio and TV shop. But to be brutally honest, I had never heard much about the Row. Well, my introduction to the Row was an eye-opening experience, one that broadened my horizons, so to speak.

My introduction to the Row was through — lets call it XYZ Electronics — a father-and-son business. The father was an old-fashioned, courtly, elderly gentleman, a product of the old school that doesn't graduate them like him anymore, may he rest in peace. His son, who did the hiring, firing, and overseeing of the daily operation, graduated from another school. He was a hard man to work for. There was one other employee on the retail floor (a decent floor manager), a bookkeeper (a warm and knowledgeable guy), a parts and order man upstairs (laconic and quiet), and at one time, a man (don't recall his name) who knew everything about HO model trains, the Blues, and jazz.

XYZ had both retail and mail order trade, and published a catalog that had a devoted core of followers. I was in the retail store, which was drafty and uncomfortable in the wintertime. I spoke fairly decent Spanish (a plus in NYC retail), and was fairly naive about dealing with the "special" body of customers who sought out Radio Row.

We worked long hours for little pay and no benefits. We had no paid overtime, no medical or dental insurance, no group life insurance, no paid time off, no sick leave, no retirement plan, no 401(K), no stock options, no pension, no bonus, no commission, no breaks, nothing, nada, niente. We worked holidays at our regular pay. I never got a raise or a paid vacation. Also, we had no company Christmas parties or picnics, and, of course, no employee association.

The attitude (and it may have been prevalent on the Row, not just in XYZ) was that you were lucky to have a job. In general, you never did anything to the boss' satisfaction, and if you made a great sale, you were neither compensated nor recognized for it. It was an oppressive atmosphere to enter every day, six days a week.

One time I was really sick for a week and got a note from my doctor. The son didn't want to pay me anything for the week, but the father made him pay me at half pay. Thank you sir! I learned much down there on the Row; probably the best thing was that I didn't want to work in retail, especially for a single proprietary owner on Radio Row.

Prior to my coming there, the other salesman/floor manager had contacted the New York Labor Department and wanted someone to check out the poor working conditions. I understood that an inspector had come in, but he left with a very nice oscilloscope. The floor manager never had any feedback from the "friends of labor." He also tried to organize a union local, and contacted a retail employees union (I forget the real name), but they didn't want to bother with us because there weren't

enough employees on the Row to make it worth their time and effort.

THE CLIENTELE

We had to take a lot of guff from unpleasant, demanding customers. Think of a major Hamfest or radio swap meet when several tight-fisted hams and collectors bombard the seller of a really hot radio. Some of them get down almost to wanting to know the name of the guy who assembled the radio! Common questions were, "How much are you asking; What will you take for it; or How about a discount because there's a scratch on it?" They would want to talk about a better price, or to pay cash with no receipt to avoid the sales tax. They might ask about its pedigree, or want to tell you about the one like it that got away from them. All at once!!

There were some like that, and fortunately, a lot of other nice ones. The bookkeeper used to warn us that if the store had not had a good day, we underpaid and overstressed employees would bear the brunt of the son's heavy mood. Good thing striking your employees was out of style, because I think that employees would have been flogged until sales improved!

I listened to the stories from elderly owners, of other Row shops, who would come in to schmooze with the father, and relive the '30s and '40s of their good old days. I heard stories from Leo of Leotone, and anecdotes about Atwater Kent and Lloyd Hammarlund and their companies from old timers who actually knew or worked for and with them.

One poor soul used to come in and pay me $1 to play a certain opera on our phonograph (we also sold records), because he didn't have a phonograph, and loved that opera! The floor manager told me he had been a "somebody," but now lived in a flophouse near the Bowery. I never knew his name. I felt sorry for him and tried to return his dollar bill, but he always insisted I keep it.

Three Russian-speaking men came in and inquired about obtaining certain radar tubes. This was at the height of the Cold War, just at the time of the Cuban missile crisis. They didn't smile and looked suspiciously at everyone. I didn't sell them anything and pleaded ignorance (partly true).

I did enjoy talking with most of the older Hams, as the smart aleck, know-it-all, impressed with themselves, younger hams and experimenters (precursors to today's Hamfest and PC show geeks) could be so rude and obnoxious. But then again, so could some of the pushy, impatient Wall Street lawyers, bankers, and financiers. We had a lot of that trade as well, and I learned first-hand how having money doesn't bring you class.

But I seldom found a down-to-earth Ham that wouldn't help me when I asked what he wanted, why he needed it, and what he would do with it. They would go on and on if you let them, always had a story or some anecdote about their shack, their first rig, Hammarlund, Hallicrafters, National, and other famous marques. Every radio or piece of gear had a story behind it; every one was a nostalgic piece of urban technological history and "hollow-state" electronic archeology. Often they would reminisce about the original and legendary owners of famous radio companies, what they had done for the radio industry, and the like. What a fascinating source of knowledge they were!

During the course of business, I sometimes spoke Spanish, which the son thought was great for his walk-in trade, but I wasn't paid anything extra for it. I never had a problem with any of the Spanish-speaking customers. I think they were happy to find someone with whom they could communicate. I learned their nicknames and spoke their slang, and tried to do a bit of helpful PR with them.

The floor manager also spoke Spanish, and yes, we did trade quips in Spanish about certain English-speaking-only bosses, not mentioning any names. One regular customer, I think his nickname was "El Toro," brought us a bottle of liquid refreshment at Christmas season. It was more than we got from management.

MORE ANECDOTES

Several of us who worked on the Row would meet for coffee before work. We met at "Hotel Nedick's Orange Room," street slang for Nedick's, a local chain famous for orange drinks. Talk was mostly shop and solving the world's problems, or comparing our bosses and their foibles.

Several months after I took the job, I found out that they had a pool on how long the new kid on the block (me) would last at XYZ's. I also found out that if the bookkeeper told the waitress (not "server" in those days) that you were "OK," you received an unofficial two-for-the-price-of-one discount, and of course, you left a larger tip.

We also met at the newly opened Vinny's Tel-Star deli, just around the corner from Greenwich Street. I think Greenwich stopped right before the South side of the WTC footprint. When I visited the WTC several years ago, I found Greenwich, but the numbers stopped before XYZ's number.

On Saturday, a few of my fellow Row wage slaves might go to an Irish bar and grill for corned beef sandwiches, bolted hastily in a 30-minute lunch-break. Saturdays were a madhouse in that many Hams and school kids came to the Row to browse, scrounge, wheel-and-deal, and sometimes just to buy. Christmas Season was like a month of Saturdays.

In these busy times, the son continuously warned us to keep a sharp eye out for shoplifters, but I never really saw any. The bookkeeper told me that the son was paranoid about shoplifters, so much so that if and when you got a raise (I never did in 7 months), he would take you aside to talk very seriously about what he expected now that he had parted with a few extra dollars, i.e., more dedication and constant vigilance.

How we were supposed to do this was a mystery, since when the floor manager and I were busy at the counter with several impatient customers, and the store was crowded with shoppers and browsers, we were stretched mighty thin. XYZ's didn't spend money on things such as security guards, CCTV, mirrors, etc. The floor manager told me that if something disappeared from the store, you might just disappear along with it. Once a week or so, the son ordered (not "asked") me to accom-

(Continued on following page)

(Radio Row, continued)

pany him to make an evening deposit at his bank. I never received anything extra for acting as a "bodyguard."

Our taciturn and hard working upstairs man, would strip components and tubes from auctioned Government surplus equipment, and then test, clean, and re-box the good tubes for sale. What a profit margin! Unfortunately, I saw unused 40s and 50s Army/Navy manuals and operating books for that equipment get trashed.

I think the only time the upstairs man spoke to me was when he saw me trying to cope with a problem customer. He told the son that he smelled trouble, and the son asked the unruly customer to leave.

There were some electronic items in the basement, but I seldom went down there. A customer once asked me if we had any Sonar cabinets. They weren't on the floor or in the catalog, and the floor manager didn't know of any, so I honestly answered, "Sorry we don't." Luckily for the customer, the father overheard me and told the customer to come along with him. They went to the basement and reappeared with one of the wanted cabinets.

The father told me not to ring it up or write it down. Cash changed hands, customer walked away with his cabinet, and everybody was happy. Well, except for the son. When he found out what occurred, he muttered something about giving away the store! He actually physically inventoried the LP records each evening to check for loss.

For reasons of profit (naturally), XYZ started to acquire and sell non-electronic, unrelated stock obtained from auctions; e.g., fishing tackle, art supplies, railroad items, etc. As electronic sales were slipping, the son brought in more goods obtained at auctions and from odd lot jobbers.

At Christmas season he stocked a selection of HO railroad items, something about which I knew nothing. As previously stated, the store had a knowledgeable gentleman who did a great sales job in that area, answered customer questions, and knew model railroading like we knew tube numbers. He was let go after the Season, and we tried to stand in for him for the remainder of the HO stock, in addition to selling the fishing tackle and sundry other auctioned goods.

I made a one-time error in selling HO railroad tracks, and it was a good thing caning your employees was no longer allowed. However, the man buying the tracks knew that he was taking advantage of my inexperience. The next time the son saw him he told him, "We don't want your business and please leave my store."

MOVING ON

The further away I got from radio and electronics, the harder it was to want to stay there (I really didn't care about selling fishing tackle or art supplies). The 6-day weeks, on your feet, no breaks, watched like a hawk, unrewarded for doing something extra, being a subway strap hanger from way up in the Bronx to way down in lower Manhattan was grating on me. My wife was pregnant and having a difficult time, and I was, fortunately, late to work several times. The son finally gave me my walking papers with neither notice nor any severance pay.

I say fortunately because he did me a favor; otherwise I might have stayed there awhile longer until I shipped out. The floor manager and the bookkeeper both told me I stayed with the retail side the longest of anyone, about 7 or 8 months. Most men who started "on the floor" quit before then. I shook their hands, we wished each other best of luck, and I saw Radio Row in my rearview mirror (in a manner of speaking).

When I left, I had no regrets. The best thing that happened was for me to leave the Row, an area that was soon to come under the wrecker's ball to clear the way for the WTC. Luckily, I found another job, but in a whole other world. In a sad twist of fate, the USS Thresher was lost at sea with all hands, and I shortly found myself working on the Navy's Subsafe testing program at a submarine yard, one of my most personally satisfying jobs. I even ended up writing, editing, and verifying their electronics manuals and systems instruction books.

I returned to Radio Row one time (to have lunch with the floor manager and the bookkeeper) several months later when I was in Manhattan. Nothing had physically changed yet, but the hard working people who depended on the Row for their livelihood weren't happy campers, since the clock was slowly, but inevitably, winding down for the area. The owners' association and their lawyers didn't have a proverbial snowball's chance against the big developers with their political and financial cronies.

The right of eminent domain eventually took its course, and well, we all know the rest. Thus, NYC acquired the star-crossed WTC, erected on the foundation of mom-and-pop and father-and-son radio stores. The backbone of small business, the product of years of hard work, Mecca of all things radio from the Roaring Twenties and Terrible Thirties, had become a dinosaur and stood in the way of progress.

So it is now gone, nostalgically remembered and terribly missed by customers, grieved over by bitter owners and their families, but not missed too terribly much by most former employees. It was a great place to browse, bargain, schmooze, and shop; a mediocre place to work; and one worth watching recede in your rearview mirror. It all depends on the angle of your point of view. So while I do miss a few things about Radio Row, I surely don't miss working there. It was a whole different world in the time of "trailing-edge technology", a time now "Gone with the Wind" (with my apologies to Margaret Mitchell).

(Gene Katz, 212 Burnam Wood Drive, Mount Laurel, NJ 08054. gene.s.katz@lmco.com)

Gene Katz is an engineer and tech writer, who teaches writing to engineers for a major defense contractor. He collects radios from the 1920s to 1940s. He is also a Ham, who fell in love with 1950s to 1980s shortwave radios and European radios, as well as boat anchors. He grudgingly accepted the intrusion of solid-state and computers into our wonderful and lamented vacuum tube world.

More on Haynes-Griffin

BY WALLY WORTH

A number of Haynes-Griffin radios were the subjects of Wally Worth's article in the August 2001 issue of A.R.C. In this article, Wally provides information on a Haynes-Griffin Superhet. (Editor)

Haynes-Griffin radios using TRF and regenerative circuits are well-known to radio collectors. Perhaps not as familiar is the superheterodyne receiver described below.

Shown in Figure 1 is an 8-tube Haynes-Griffin Superhet that I recently discovered. It features 2-knob tuning and uses Type 01-A tubes. Its Bakelite panel size is 7" x 24". The walnut cabinet is not home built, but factory-made.

Figure 1. This front panel view of the Haynes-Griffin Superhet shows the two main tuning control dials, the two rheostat controls beside the two dials, the off-on switch (lower right), and the two phone jacks at the far left.

An interior view of the radio is provided in Figure 2. Components are mounted on the Bakelite front panel and wooden base. The IF transformers, located at the right rear, are all marked "Haynes-Griffin." The Koras audio transformer may be a replacement. The two stages of audio amplification at the left side of Figure 2 are resistance coupled. The RF transformer located between the two panel-mounted tuning capacitors is a Dubilier "Duratran." Battery connections are made by seven binding posts on the rear of the cabinet.

Figure 2. The layout of this 8-tube Haynes-Griffin chassis shows the complexity of those early superhets. However, the components are neatly arranged and not too crowded.

Wiring consists of uninsulated tinned copper wire (often refered to as bus-bar wiring), and some insulated, stranded, flexible wire. The quality of the wiring suggests that the radio was built from a kit rather than a factory-produced radio. Since the front panel was unengraved, I added the "Haynes-Griffin" legend for identification.

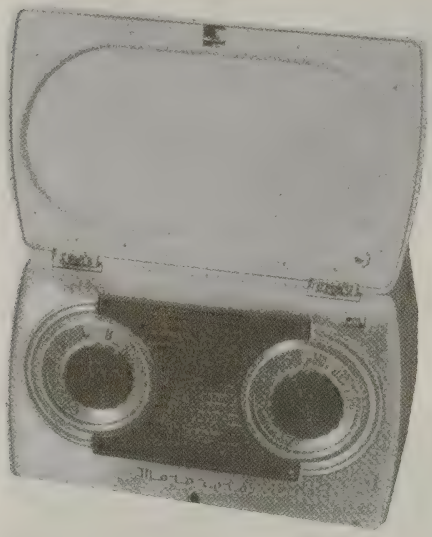
Although I have not tried to connect up the Haynes-Griffin superhet to a power supply and actually play the set, it is in such very good condition that I have no doubts it would not disappoint me.

(Wally Worth, 2 W. Elm Ave., Wollaston, MA 02170)

At age 15, Wally Worth began saving his paper-route money to buy parts to build 1-tube sets. Fifty years later, he started to collect anything that needed cabinet work. His diverse collecting tastes include crystal sets, 1920s battery sets, novelty radios, tubes, and both horn and cone speakers.

PHOTO REVIEW

This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.



MOTOROLA MODEL 5A9M – This portable, 5-tube AC/DC radio was sold in 1948. The cabinet is metal, and the set plays when the flip-up front cover is opened. The dial on the left is for volume only, while the one on the right is for tuning the broadcast band. *(Clark Trissell – Lincoln, NB)*

PHILLIPS MODEL UNKNOWN – This 4-tube, local-station receiver is housed in a wooden cabinet with an ornate pagoda design. It was manufactured in 1930-1931. It also came in a cathedral-style cabinet made of Arborlite. *(Jim Taylor – Bournemouth, England.*

McKAY TYPE 401-A – This bright yellow metal radio was used as a portable lifeboat radio. It was manufactured in 1954 for use by the U.S. government as an emergency receiver-transmitter for mariners in distress. The holes allow for the insertion of crank handles for generating power. There is a waterproof key for sending CW. In the photo, canvas covers for storage can be seen resting beside and on top of the radio. The manufacturer, the McKay Radio and Telegraph Co. of New York, claimed "It floats." *(Dave Crocker – Mashpee, MA)*

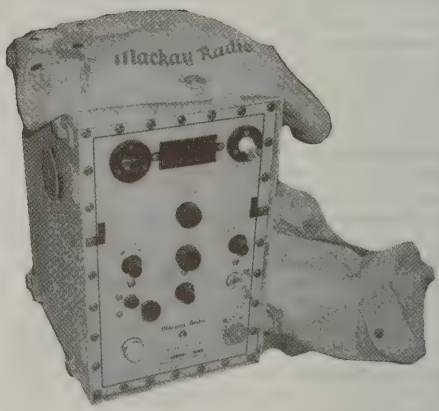


PHOTO REVIEW

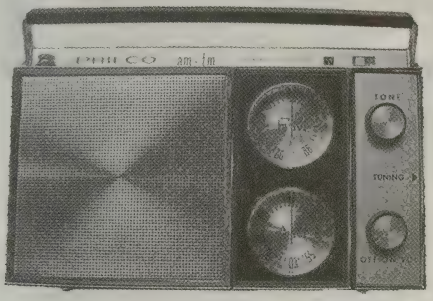
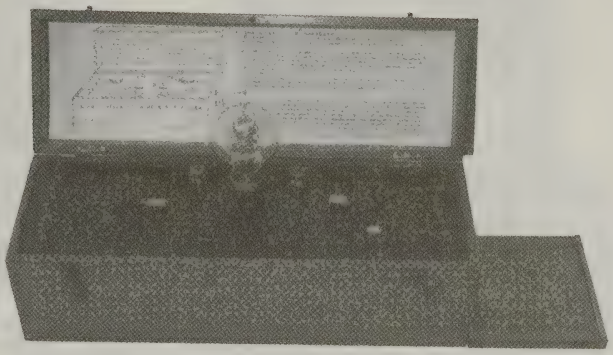
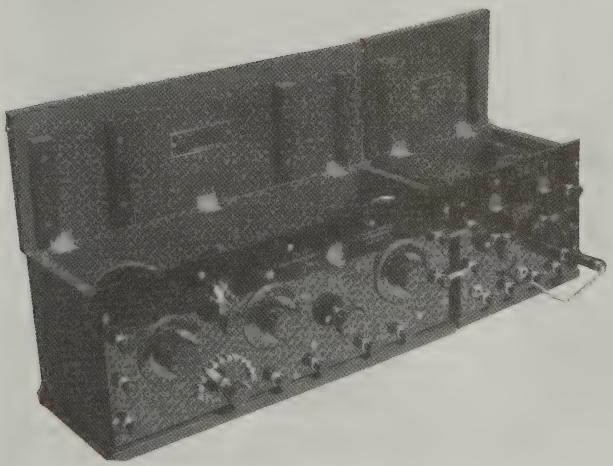


PHILCO MODEL NT906BKG – This AM/FM 9-transistor portable uses four Type AA batteries for power. It was made in the early 1960s and came with a leather carrying case and a telescoping antenna. *(Francis Yonker – State College, PA)*

HAMMARLUND MODEL HQ-110A – This metal-cased radio is a quality shortwave receiver. It tunes from 160 to 6 meters. The circuit uses the following tubes: (2) 6BZ6, 6BE6, 12AX7, 6BA6, 6AZ8, 6BJ7, 6AQ5, 6C4, 5U4, and 0B2 regulator. *(Clark Trissell – Lincoln, NB)*

H.P.R. UNIVERSAL WIRELESS RECEIVER NO. 210 – This pre-broadcast British one-tube receiver was manufactured by H.P.R. Wireless, Ltd. *(Jim Taylor – Bournemouth, England)*





KENNEDY TYPE 281 AND TYPE 521 – This 2-unit combination set is made up of a Kennedy Type 281 1-tube receiver and a Type 521 2-tube amplifier. The set was manufactured in 1921 by the Colin B. Kennedy Co. of St. Louis and San Francisco. The receiver has regenerative circuitry and tunes from 180 to 620 meters. *(Dave Crocker – Mash-pee, MA)*

COLLECTING FOREIGN SETS

Philips Receivers and Posters

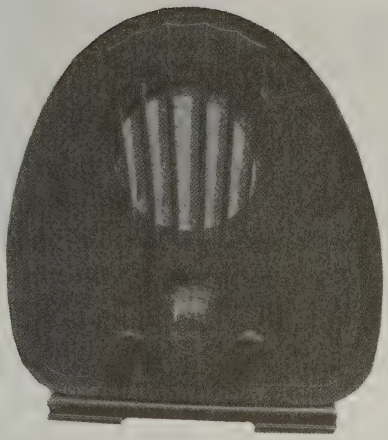
PHOTOS CONTRIBUTED BY GIRARD FAASSEN

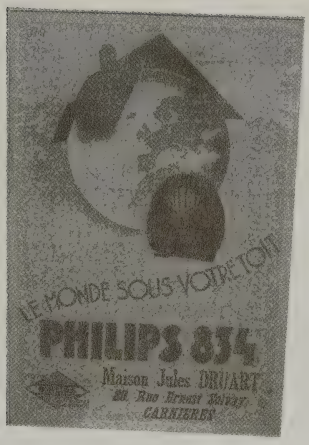
Many U. S. collectors have had the pleasure of meeting Girard Faassen of Holland at AWA meets in Rochester. Some, like your editor, have visited Girard at the large museum on the grounds of his home in the town of Reuver. Here one can see an impressive exhibit of old automobiles, as well as a large display room full of fine radios, and a separate radio repair shop. Perhaps one of you has tried out the antique telephone booth outside the museum door.

The radios are beautifully displayed on shelves and in glass cabinets. An example is the display of three Phillips receivers, along with original advertising posters from Phillips, shown on this page. It's a pleasure to share Girard's photos with A.R.C. readers. (Editor)

The Phillips Type 630A tombstone of 1932/1933 has six tubes, and its 21" tall cabinet is a molded Arbolite material in simulated walnut. The matching advertising poster calls it the "Super Inductance." This particular radio was the millionth one made by Phillips.

This Phillips Type 830A cathedral of 1931/1932 has five tubes and features an illuminated dial face. The 19" tall cabinet is a molded Arbolite material in simulated walnut. The advertising poster calls it the "Super Inductance Junior."





This Phillips 834A is a 6-tube cathedral of 1933/1934. The 18" tall cabinet is made of molded Arbolite with a brown "Philite" front. The words on the advertising poster claim that it places "The World Under Your Roof."

(Girard Faassen, Heideweg 1, 5953 TL, Reuver, Holland)

Dorotheum Antique Radio Auction
Vienna, Austria — November 6, 2002

CONTRIBUTED BY ERWIN MACHO

Auctionhaus Dorotheum in the tenth district of Vienna held its third combined radio and photo equipment auction on November 6, 2002. A preview was offered from October 19, as well as on the morning of the auction, which started at 2:00 P.M. with a total of 202 photo equipment lots offered. Included were some nice novelties, such as Leica cameras.

After a short break, the radio auction began with a Minerva "Super Baby," which had a starting price of $75 and sold to a lucky bidder for $110. Of the 47 cataloged items, the Ingelen Geographic US-537W was the most outstanding highlight. It is one of the most wanted radios by Austrian collectors because for tuning, it uses small light points on a colored European map scale.

This Ingelen Geographic US-537W, in a beautiful wooden cabinet, was the highlight of the auction. Tuning is displayed by light points appearing on the colored European dial face. Desired by most Austrian collectors, it brought a high bid of $2,200.

Desired both by collectors present at the auction and by foreign collectors via written bids, the set went for $2,200 after one minute of spirited bidding. The Geographic will get a new home in the largest Ingelen collection in Vienna.

The next Dorotheum auction will be in May 2003. For more information, please check the Internet at www.dorotheum.com or see A.R.C.'s "Coming Radio Events."

The following is a list of items sold in the

(Continued on following page)

This Minerva Tempo multiband receiver in good condition sold for $220.

(Dorotheeum Auction, continued)

radio auction. Most sets were in complete and original condition. All prices have been rounded to the nearest U.S. dollar.

e=excellent, vg=very good, g=good, f=fair, p=poor, wk=works

Radios, General:

B&O Beomaster 1000 and Beocord 1100, g	$80
Home-brew radio, p	90
Ingelen Geographic US-537W, g	2,200
JRC Type NDR-525G comm. receiver, e	600
Minerva Super Baby, g	110
Minerva Tempo, g	220
Nora, DKE38, f	180

MEET & AUCTION REPORT

Indiana Historical Radio Society Meet and Auction Report.

Greenfield, Indiana – May 10-11, 2002

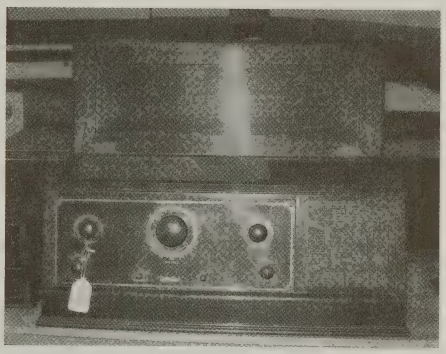
REPORTED BY FRED PROHL

The Indiana Historical Radio Society (IHRS) held its 31st annual spring meet on May 10 and 11, 2002. For a second time, the meeting was held at the Hancock County Fairgrounds in Greenfield, Indiana. On Friday evening, members and friends of IHRS filled the spacious 4H building with swap-n-sell items, contest entries, an operating radio display, and auction items. On Saturday, with the 4H building full, swap-n-sell expanded to fill an outdoor pavilion and beyond into the grass.

Ninety-nine families registered for the event, with 55 swap-n-sell tables purchased. Seventy-two attendees enjoyed the awards lunch on Saturday. The "Best Of Show" award went to Bob Sands with his "Never used – Fresh from the box" Crosley 50 display. Ed Dupart presented a 45 minute seminar on signal tracing as a trouble-shooting tool.

The closing event of this year's IHRS/AWA meet was an auction of radio equipment collected by former IHRS member George King. Mr. King, a graduate of Butler University's Broadcasting program, worked for the historic Indianapolis radio and television station WFBM. His career at WFBM as a producer/director/writer spanned the years 1963 to 1985.

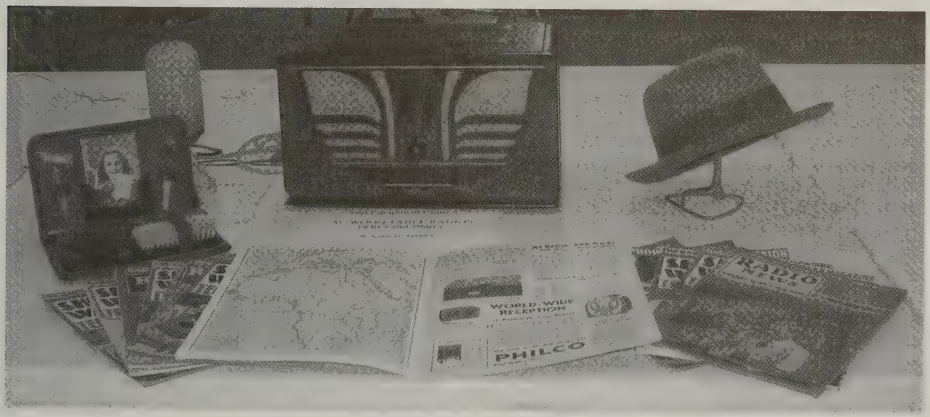
Many collectors have the book *From Crystal To Color, WFBM* in their libraries. The book covers WFBM history (the fifth radio station to be established in Indiana) from 1924 to 1964. As a relatively new employee, George King made the book with his picture in "WFBM Station's Class of 1964."



This Day-Fan battery set with built-in speaker sold for $55.

King had a varied career connected with radio and television. His role in producing and directing shows about racing and the drivers led to his selection as a member of the Speedway Old Timers Club. He traveled to the homes of such

(Continued on following page)



An interesting contest entry was this 1940s Philco "Butterfly" in period display.

This Sodion and a "Never Used" Crosley 50 portable was a 1920s battery sets contest entry.

(IHRS Meet, continued)
drivers as Al Unser, Sr., A. J. Foyt, Rick Mears, and Bobby Unser, Jr., to prepare half hour shows about each of them. He also designed and built sets for professional theatre and television.

He began his broadcasting career at Channel 8 (WISH), went to Channel 13 (WTHR), took a short detour working as an account executive out of Cleveland for WLW radio, and finally went to WFBM. At one point in time the news sets for Channels 6, 8, and 13 were all created by George.

The auction consisted of about 90 radios, plus tubes, parts, and literature. IHRS member, John Jones, provided an auction bill of items with a good, fair, and poor evaluation. Approximately 50 bidders were a responsive audience for the 90-minute auction. Total sale of the items exceeded $4,500. The following list is a selected sample of the auction items.

g=good, f=fair, p=poor, NT=no tubes

AC/DC radio, no name, small plastic, g $70
Arvin 441T, p 15
Atwater Kent cathedral 84, f 275
Atwater Kent 44, g 10
Burns horn, p 40
Crosley 167, g 80
Crosley 124 grandfather clock radio, p 70
Cylinder player brass horn, g 60
Day-Fan battery set, w/built-in speaker, g 55
Eveready metal cabinet, f 30
Fairbanks Morse 57, w/speaker, g 40
Firestone Airchief table, wood, g 40
Freshman battery set, NT, f 30
General Instrument R-17, g 50
Glorytone 26, f 60
Grundig hi-fi, '50s, f 50
Hallicrafters W2000 portable, f 60
Hallicrafters SX16, g 65
Home-brew battery set, g 40
Karden battery set, g 75
King 80A battery set, g 28
Knight battery set, 3-dial, g 110
Majestic 15, f 80
Military signal locater, g 45
Philco 1937, 5-tube, f 180
Philco car radio, no dial & cable, p 6
Philco highboy, f 50
RCA Radiola 60, f 25
RCA Radiola UZ1325 horn, g 60
RCA Radiola III, f 45
RCA Radiola IIIA, f 50

(Continued on following page)

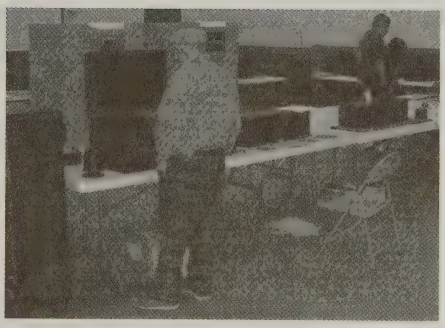
***A warning**: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.*

This RCA Radioa IV in fair condition sold for $175.

RCA Radiola IV, f 175
RCA Radiola AR-812 Super, NT, f 40
RCA Victor 11B tombstone, g 70
Shure turntable, g 50
Stewart-Warner battery set, NT, f 10
Stromberg-Carlson 58T tombstone, g 75
Tape synchronizer, f 250
Temple speaker, g 25
Zenith chairside, 14-tube, AM/SW, f 550

(Fred Prohl, 3129 Lanam Ridge Rd., Nashville, IN 47448)

The Indiana Historical Radio Society publishes the "IHRS Bulletin" quarterly and holds quarterly meets in various area of the state. Dues are $15/1 year or $25/2 years. For more information, write to IHRS, 245 N. Oakland Ave, Indianapolis, IN 46201-3360. http://home.att.net/-Indianahistoricalradio/



Pete Yanczer checks out the "Operating Radio" display before the crowd gathers.

New England Antique Radio Club Meet
Nashua, New Hampshire — July 28, 2002

REPORTED BY JOHN HAGMAN

Remembering summer via John Hagman's account of his July trip to the NEARC meet in New Hampshire is a pleasure, as we look out on our current snow-bound world. John is obviously a good shopper and a good coversationalist at these small meets, which he describes as "warm, welcoming, down-home" events. (Editor)

On Friday night, before the July 28, 2002, summer New England Antique Radio Club (NEARC) meet, I camped out in lovely Pillsbury State Park in New "Hamster," which was great, except for dropping my swordfish supper in the fire briefly. I had a site right on the lake, and did a four-mile hike with the dogs. Saturday, I attended NEARC's swap at Saint Stanislaus Hall in Nashua.

This was my fourth summer meet in Nashua, and attendance was better than usual with about two-thirds of the tables taken. Historically, summer is the least popular NEARC meet due to the lack of A/C in the hall and scheduling conflicts. But yesterday it was unseasonably cool out and the hall was very comfortable.

There are some radios that sellers bring to nearly every swap I go to. Now I think of them as old friends. "Look, there's that nice restored Philco 90 for $575." Or a nice Zenith 10-tube console from the cheapened era (circa 1940) that had a half dollar sized hole in it and bad grill cloth for $275. And there was that very nice Silvertone big dial console for $600 (another old friend who comes to every swap). Plenty of stuff to look at but not too many high end fixer-uppers that are my grail.

I did spend a bit over a C note on a mid-1930's, working, "Junior" table radio by the "W.M. Company." It's the usual 5-tube shouldered AC line-up inside, but it has a really cool cabinet and knobs in fine original condition. The dial scale is right on a big 3", brown marbled, plastic tuning dial, and the case is a very pleasing real Deco design. (Is that "real Deco" like Chrysler Deco or is that Sears eBay Deco?).

Also, I got one of those Stromberg-Carlson postwar, Guggenheim Museum-styled, painted "Bakedolight" radios for $10, and the steering column portion of a Tom Thumb auto radio for $5. Now I just need the speaker portion of the Tom Thumb which also has a dual triode for 1st and 2nd audio for $5. I hope.

I also enjoyed showing off my new radio schematic tattoo (See January 2003 A.R.C., page 18). Joe Coco wants one too. Thanks to him and all the other good folks who make this show possible. I very much enjoyed talking with Marty Bunis for a bit. This was my first meeting with him in person. The conversation got around to Rochester, which many people find too much of a hassle these days for sellers. This is something I hear from folks I see at Nashua and no longer at Rochester. God bless those whose still know how to put on a warm, welcoming, down-home radio meet like NEARC and GBARC.

Of course, I'll be at future NEARC and AWA meets — I'm young and still have fight left in me.

(John Hagman, 190 Park St., #2, Burlington, VT 05401. http://home.att.net/~yonny)

The New England Antique Radio Club has quarterly meets and also publishes the "Escutcheon" quarterly. Dues are $10 per year. For more information, contact Bob Anderson, P.O. Box 918, Melrose, MA 02128. (978) 343-5726. www.oldradios.com/clubs/nearc.htm

RESTORATION TOPICS

Eveready No. 2 Restoration

BY ALTON A. DUBOIS, JR.

In restoration work, it seems all things are possible if you are persistent and patient. Even hard-to-find parts can be found, many of them through A.R.C., as Alton DuBois proves. (Editor)

Several years ago, I found an Eveready #2 radio in an antique shop for a price I could live with. I happily took it home, checked it out, and almost burned out my variac. I discovered that the power transformer was shorted.

Reluctantly, I removed the power supply unit that was neatly connected by a screw type terminal strip to the rest of the chassis. This unit also contains the audio output stage with power, two 71-As, and push-pull transformers. On opening the can containing the power transformer, I found a thoroughly charred transformer. I suspect that it might have been plugged into a DC outlet.

I checked on a circuit diagram for the transformer and sent a description to the late Frank Krantz, who said that he had exactly what I needed — a Steinite transformer for $15. The good part is that it also fit the aluminum can that held the original transformer. After it was installed and tested, I checked out the rest of the circuit.

All the hook-up wire was rubber-covered that cracked off when touched, so I went about rewiring almost all the circuits. I was practically rebuilding the set.

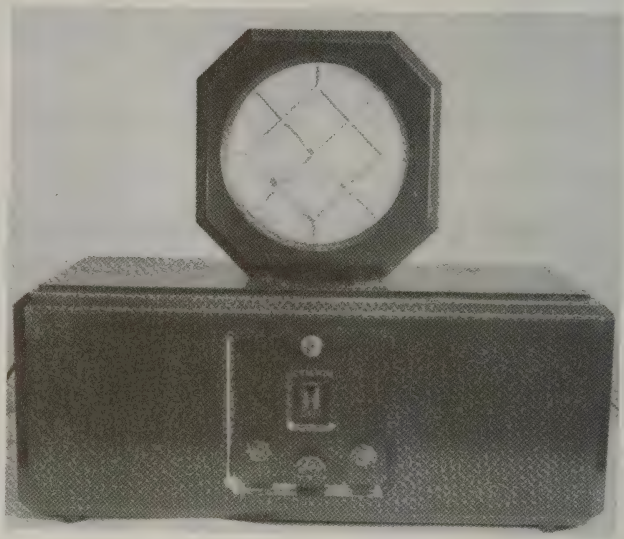
Now to complete the restoration. The specially shaped cast lid was missing when I bought the set, so I put an ad in A.R.C. and got a call from a man in New Jersey. He said that he had a lid for $15. Incidentally, the entire case for the radio is also cast aluminum alloy. Now I needed an acceptable speaker.

I contacted Bill Utley in California. He said he had a rare speaker that had a good grille in the front for $75. The cone speaker in it needed cleaning up and the driver needed work. The paint on the case was in bad shape so I painted it with a similar color paint.

Now I am really proud to have this set in my collection.

(Alton A. DuBois, Jr., 67 Peggy Ann Road, Queensbury, NY 12804)

Alton DuBois has been interested in radio since working for an engineer after school in the 1930s for 10 cents per hour. Having worked in TV service for RCA since 1948, he is a founding member of the RCA Retirees Club. His collecting interests include antique clocks as well as radios.



Alton's restored Eveready No. 2 radio.

ALTON'S SERVICEMAN'S VIGNETTES

One time, when I was working in a small radio shop right after the war, the owner had left me in charge, and I was alone in the shop. I had locked the front door at closing time and was counting the cash for the day when this guy banged on the door and demanded that I open it. He had a battery radio that did not work and wanted it fixed immediately. I told him to leave it for tomorrow. No, he wanted it right now. To get rid of him, I looked inside and saw that the antenna loop lead had come loose. I resoldered it to the terminal, and the set worked OK. He asked what the charge was and I said 50 cents. "Fifty cents" he yelled, "just for soldering a wire?" He threw the half dollar coin on the floor and went out the door. I picked up the coin and threw it after him. I told him that I didn't need 50 cents from him and not to come here any more. His wife was sitting in the car looking embarrassed, and they drove away arguing about the encounter.

RADIO MISCELLANEA

"Radio Miscellanea" includes items of general interest selected from A.R.C.'s incoming correspondence. "In The Marketplace" items are based on information submitted by the businesses themselves. "From The Internet" items are obtained from internet newsgroups and other internet resources. Submitted items should be verified for accuracy; items may be edited by A.R.C. for publication, and publication is not guaranteed. See the masthead for more details.

Happy Valentine's Day

Dear Editor:

I found this old comic valentine entitled "Radio Bug" at the famous Canton, Texas, flea market. The paper is fragile, and there is nothing on the back of the original. Since it was radio-related, I had to buy it and am sending a copy to you in case you find it interesting enough to print for other A.R.C. readers. Perhaps in the February issue?

I am still enjoying A.R.C. Thanks and best regards.

Ed Adrion, Shreveport , LA

This is certainly a unique valentine in that there is no evidence of hearts or pleas to "Be mine." Handwritten on the card are the words "To Mrs. Sommers" — who, if she was a teacher, would hardly be inspired to give an "A" for sentiments like "Your head is just a peanut tube." (Editor)

More On the RCA 8X-545 Series

Dear Editor:

I have some additional information to pass on to Richard Arnold and fellow collectors regarding the RCA 8X-541 radio series. RCA actually made this radio in some additional models/colors which I have in my collection: 8X-546, 8X-544, and 8X-545. These are faux wood finishes on Bakelite and are real attention getters. Upon researching copies of old RCA brochures and ads, I found that these models were decor-oriented and sold for about $5 more than the maroon or ivory siblings. These models are extremely hard to find, especially in excellent condition.

The 8X-546 is a faux blond (light butterscotch wood tone) wood pattern. It is a very cool looking radio and my favorite. You can see a picture of this model at the Old Radio Pictures Web site at www.geocities.com/old_radio_pictures/index.html under the RCA Victor section. The 8X-544 is a faux red mahogany wood pattern, and the 8X-545, a faux brown walnut wood pattern. They are all great looking radios. Also, RCA made some other styles/models during this same 1948-1949 period in these same faux wood color finishes, including an AM/FM model.

Paul M. Preuss, Houston, TX

Kudos for A.R.C.

Dear Editor:

Thanks for your help in finding a transformer and reactor for my GE-155 and also a transformer for the Radiola III.

Bob Hoppe, Waverly, NY

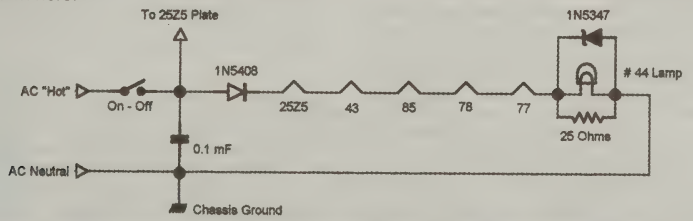
Dear Editor:

Just a note to let you know that I think you folks at A.R.C. are maaaaaaaaaaaarvelous!!!!

Bob Snively, Richmond, IN

Resistance Line Cord Correction

In the December 2002 issue of A.R.C., Ted Rogers describes a solution to the problem of replacing bad resistance line cords. However, Murphy struck. As several readers informed us, the schematic diagram for the modified filament circuit contained errors. Ted's solution is a good one, but should only be incorporated as shown in the corrected schematic shown here:



The on/off switch must be rewired to switch the hot side of the AC line. Also, the correct polarity of the 1N5347 zener diode is also shown in the revised schematic.

Our thanks to Donald Borowski, Fred Crews, and Charlie Rhodes for their constructive comments. (Editor)

GUARANTEE. You may cancel your subscription at any time and receive a pro rata refund for issues not yet mailed. If errors to ads are made by A.R.C., upon request a free correction will be run in the next available issue.

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA or MasterCard ($10.00 min.) are preferred. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds.* Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or e-mail. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by VISA or MasterCard is preferred if your order is over $10. If under $10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. **Antique Radio Classified** welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the 27th of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisified, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. **Originals must be the artwork size listed below.** Send all artwork on disk or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add $16.00 per photo for screening unless part of an existing electronic ad. **Do not cut or trim photos or glue photos to artwork; submit separately.**

If you are confused by these requirements and terms, please contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/8-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

Page	ARTWORK SIZE (SEND IN THIS SIZE) H x W (inches)	As Printed (size in magazine) H x W (inches)	Cost for 1-month	Cost for 3-months	Cost for 6-months	Cost for 12-months	One Time to make up Ad

A.R.C. RATES & POLICIES

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 20-WORD AD for subscribers in each issue; additional words are 29¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive two months) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital i and the small L.) Also: 0, O , o, Q and D; r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets].

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 20 words may not be used for club activity ads. A discount on display advertising is available for clubs.

CLASSIFIED AD DETAILS

Deadline: NOON ET– 10th of the month!

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address is required in all classified ads; we will add it if you forget.

Classified Ad Rates per Month

Subscribers:

First 20 words: **FREE***
29¢ per word for extra words over 20 **plus**
10¢ per word for a shaded ad (count all words including free words).
* Subscribers may take 20 free words on only **one** ad each month.

Non-Subscribers:

47¢ per word **plus**
10¢ per word for shaded ad.

Please do not forget to send in the extra 29¢ per word when your classified ad runs over the free 20 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

BOXED CLASSIFIED AD DETAILS

Deadline: 1st of the month!

Boxed classified ads can run unchanged for three months or more. No words are free. Ads may be shaded and may include bold and all-capitalized words freely. The ad need not begin with "For Sale," etc. Minimum run is 3 months, prepaid. Discount: 10% for 6 months; 20% for 12 months.

Boxed Classified Ad Rates per Month

Nonshaded ads:
40¢ per word for all words,* none free, **plus**
10¢ per word for each bold word **plus**
10¢ per word for each all-caps word.
Shaded Ads (All words are bold at no charge):
50¢ per word for all words* **plus**
10¢ per word for each all-caps word.
Non-Subscribers:
Add 20¢ per word to above costs.

*Three words can be bold-all-caps at no extra charge.

PHOTO & DRAWING DETAILS

Deadline: 1st of the month for all ads with drawings or photos!

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

$23.00 per month for each photo or drawing
(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The **standard headings**: WANTED, FOR SALE, etc., count as **one word** each time used in an ad. **Name, address** and (one) **telephone number**, count as **6 words**, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address is required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

FOR SALE: New reprints added to our radio/wireless list. Visit www.beqbooks.com. Click on Technical & Reprints. Bequaert Old Books, PO Box 775, Fitzwilliam, NH 03447. (603) 585-3448. E-mail: info@beqbooks.com

FOR SALE: Many nice transistor radios. Call or e-mail for list. Take 30% off. Doug Ferrero, 70173 Hillside Ct., Romeo, MI 48065. (586) 336-0120. E-mail: w8ynz@bignet.net

FOR SALE: Philco 38-116 – $375. Zenith 8S661 – $135. Not restored, pick up only. Frank Drost, 1120 Scarborough Ln., Woodbury, MN 55125. (651) 406-1266

RADIO XXXIV

Biggest Show on the East Coast ★ Same Giant Location

★ Last Year's Show Sold-Out ★

790 Attendees ★ 72 Exhibitors ★ 7,900 Square Feet ★ 105 Tables

An Indoor Old Radio Flea Market

Sunday, February 16, 2003 — 8:00 A.M. till 1:00 P.M.

Registration begins for all at 7:30 A.M.

$8 admission (spouse & children free) – Exhibitors see below.

Westford Regency Inn — Regency Room — Westford, Mass.

(I-495 at Exit 32 — directions below)

Refreshments will be available.

Informal Dinner – Sat., Feb. 15th, 7 P.M. to 9 P.M. – No reservations needed – Dutch

Yangtze River Chinese Restaurant — 2.2 mi. west of Westford Regency on Rt. 110.

Preregistration & Info.: A.R.C., P.O. Box 2-W20, Carlisle, MA 01741 – (866) 371-0512 – arc@antiqueradio.com

Exhibitors: $8 per person for admission plus $24 per table. Table sizes and location assigned on a first come-first serve basis. Early registration is recommended in order to obtain space in the main hall. Last year's exhibitors may reserve the same location as last year if we receive their paid registration by February 1, 2003. Adjacent rooms will be used for overflow. Four table limit per exhibitor. Exhibitors must occupy tables for entire show. Tables unoccupied 15 minutes prior to the end of the show will not be eligible for early reservation of the same location in 2004. Exhibitors may register at the door or may pre-register by mailing payment to: Radio XXXIV, c/o A.R.C., P.O. Box 2-W20, Carlisle, MA 01741. (Make check/MO to A.R.C.; Visa, MasterCard, Discover, American Express OK, too.) If paying by credit card, exhibitors may pre-register by calling (866) 371-0512 or faxing (978) 371-7129. **Note:** After picking up registration materials at the registration desk, exhibitors may enter the hall only to deliver goods to their table (e.g. not to set up) and then must return to the foyer until the doors open for everyone at 8 A.M. **Cancellation Policy:** Table fee will be refunded only if requested and the table is resold. If a table is not occupied by 9 A.M., a table may be cancelled and resold.

Overnight stay: Westford Regency Inn at 1-800-543-7801. Mention Radio XXXIV for special rates. Room reservations should be made by January 31, 2003 for special rates. Bring your family to enjoy indoor pool, health club, racquetball courts, three restaurants, bar, etc. Night skiing at Nashoba Valley Ski Area, only 2 miles away!

Directions: From I-495, take Exit 32. Follow "To Rt. 225" sign. At stop light, turn right onto Rt. 110-West for 0.4 miles. The Westford Regency is on the right. Use doors on right (north) side of Inn. Ramps at both show entrances! The Westford Regency Inn and Conference Center is a 193-room hotel with 3 restaurants and over 500 parking spaces. With over 20,000 square feet of conference space, we have room to expand our future radio meets!

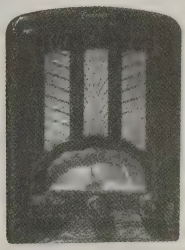
Sponsored by:

The Greater Boston Antique Radio Collectors

Not a club, no dues, no newsletter... just a great group of collectors!

Thanks to Antique Radio Classified for organizing this meet.

WANTED: Original large main tuning and bandspread knobs for a Hallicrafters S85 radio, will purchase parts radio. Call or write. Albert D'Amico, WD2AAB, 37 Baynes Ave., Buffalo, NY 14213. (716) 884-6029



WANTED: Emerson Catalin radios. Nobody pays more than I. What an arrogant and inaccurate thing to say. I mean, like there isn't anyone wealthy enough, dumb enough, desperate enough – or any combination of the three – to pay even a dollar more than I would pay. I mean, c'mon, who am I trying to kid! Please write or call collect: Rain Buttignol, 214 State St., #7, Portsmouth, NH 03801. (603) 427-1384

WANTED: Kellogg 401A tubes that are operable; Arcturus 71, 01-A, 26, 27. Info on Kellogg and American Mohawk radio, Raytheon BH history/data. Write: J.K. Grady, 43 Slough Rd., Harvard, MA 01451

WANTED: Quantities of N.O.S. tubes: pre-octal, transmitting, special purpose, unusual or odd. William Berson, PO Box 1223, Weston, CT 06883. Fax: (203) 226-3306. E-mail: William@webtubes.com

WANTED: Fada 33, Hallicrafters SX23 speaker, military TCS receiver. Bob Forte, 335 Lake Tour Rd., PO Box 160, Lake Luzerne, NY 12846. (518) 696-2400. E-mail: forte@capital.net

WANTED: Klitzen radios, catalogs, sales literture, flyers, advertising, and manuals made by the Klitzen Radio Co. of Racine, Wisc. in the 1920s. Clem Krivich, 627 Monticello Dr., Racine, WI 53402. E-mail: ckrivich@mail.rootcom.net

WANTED: Nameplate for BC-342 receiver, 4 x 4 x 2 aluminum metal utility cabinet, removable front, back, covers. Louis L. D'Antuono, 8802 Ridge Blvd., Brooklyn, NY 11209. (718) 748-9612

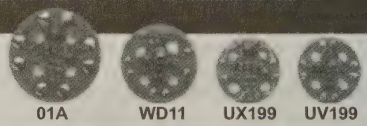
RADIO RESTORATION PARTS

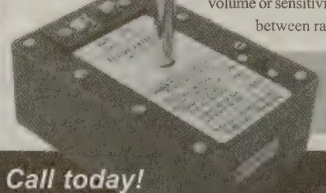
Vacuum Tube Repair Wafers

These wafers are solid-state devices for quick and easy repair of early vacuum tubes. The wafer is installed by simply sliding it over the tube pins and resinserting the tube into its socket. If the filament is intact but there is little or no emission, the filament may be lit for best visual effect. However, the tube can be open filament.

No change in radio operating voltages is required. Any number of tubes may be repaired in a radio. If wafers are installed on all tubes, the B+ voltage typically may be reduced without sacrificing volume or sensitivity. Performance will vary between radio models. **$10 each (3 or more, $7 each)**



Model #	*Also fits:*
01A	00, 00A, 01, 201A, 301A, 12, 112, WD12, 40, 71, 171
WD11	–
UX199	20, 120, UX120, UX120, 30, X130, UX130
UV199	–



Active Antenna

The active antenna allows antique radios designed for a long wire outdoor antenna to operate on a 42" indoor whip antenna. Portable. Operates from a 9-volt battery. **$34.95**

Atwater Kent Breadboard Switch

This switch is a high-quality reproduction made in steel molds from the same type of material used by A.K. **$50**

Prices include shipping. Orders shipped UPS or parcel post, prepaid in continental U.S. Allow 3 weeks for delivery. Arkansas residents add 5.375% sales tax.

Radio Auction
The Ken Blakeman Collection

February 22, 2003 at 10 A.M. EST

at the Expo Auction Center, 8157 Garman Rd.,
Burbank, Ohio, Exit 204 off Interstate 71

Estes Auctions is pleased to offer the superb radio collection of Mr. Ken Blakeman of Syracuse, N.Y. Ken is well known for his excellent superhet collection built around the Silver-Marshall Radio Company. Ken also added to this great collection with cathedrals and tombstones, battery sets, amateur radio receivers, console models, horn speakers, a nice selection of tabletop radios, a Model 9 and Model 10 breadboard, and a beautiful 23-tube Scott Imperial.

Please view our web site for the auction listing. This will be a rare opportunity to acquire some of the items in this sale.

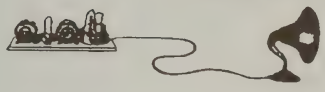
Estes Auctions



Specializing in Vintage Radios
Complete Auction & Appraisal Service

Vintage Radio Auction

Saturday, March 29, 2003 at 10 A.M. EST

at the Expo Auction Center, 8157 Garman Rd.,
Burbank, Ohio, Exit 204 off Interstate 71

Estes Auctions will offer the collection of Ernest Exendine of Missouri. Ernest has chosen Estes Auctions to sell his collection of quality radios which will include the following items: Zenith consoles, a Zenith Walton 9S232. Also Trans-Oceanics, battery sets, tombstones, cathedrals, wood and Bakelite tabletop radios. Test equipment, tubes, magazines, books and other literature.

We will have more information in the March issue of *Antique Radio Classified.* We have just signed a collection from Ohio and will have details on that also in the March *A.R.C.* Watch our web site.

Fax: (978) 371-7129 – E-mail: ARC@antiqueradio.com – Web: www.antiqueradio.com

Free shipping & handling on all U.S. orders (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Mass. residents add 5% sales tax. Non-U.S. orders, write for shipping costs, or use credit card and specify air or surface (allow 2-3 months for surface shipping). Most orders shipped by next business day. If using credit card, include name on card, card number and expiration date. Send payment with order. Money back return policy. Subscribers, ask for discount when placing order: 10% off books; order must be mailed to address on file.
